

in.tuio://:3333

```
graph LR; A[in.tuio://:3333] --> B[viz:]; A --> C[dump:];
```

The diagram illustrates a network flow. On the left, a rectangular box contains the text 'in.tuio://:3333'. A horizontal line extends from the right side of this box. This line then splits into two separate arrows, each pointing to a destination box on the right. The top arrow points to a box labeled 'viz:', and the bottom arrow points to a box labeled 'dump:'. All boxes have a thick black border, and the text is in a black, monospaced font.
